John Dominic M. Acuisa

Full-Stack Web Developer

PROFILE

Motivated and detail-oriented Web Developer with a strong foundation in both front-end and back-end technologies. Experienced in applying practical and theoretical knowledge through personal projects and professional engagements. Known for being a fast learner with excellent problem-solving skills and a proactive attitude toward continuous learning and emerging technologies. Eager to contribute to impactful IT projects while gaining hands-on experience and advancing my technical expertise in a dynamic and collaborative environment.

💼 WORK EXPERIENCE

DigitalCinema (Offshore Company)

Web Administrator (Magento)

Oct 2024 – Current

- Collaborated with the IT team to manage and update product catalogs in Magento. Handled the addition of various product types (simple, configurable, grouped, bundled) and implemented promotional pricing using Magento's built-in price rules—gaining hands-on experience with CMS workflows and e-commerce platform functionalities.

Stronghold Insurance Company Inc.

Web Developer Intern

April 2024 – July 2024

- Collaborated closely with the software development team to deliver high-quality web solutions.
- Handled app logic, content, layout, and bug fixes to improve performance.
- Designed, developed, and deployed a dynamic web application (PRODIFY) using Laravel, JavaScript, jQuery, and Bootstrap—enabling real-time tracking and analysis of performance metrics and production data for agents and branch operations.

📋 PROJECTS EXPERIENCE

Calendash (Event Management System)

- Developed a user-friendly event management web and mobile application for scheduling and organizing school activities such as conferences, festivals, and tournaments. Enables administrators to manage events and locate venues efficiently. Built with Laravel, PHP, MySQL, JavaScript, React Native, and Expo.
